

## Australian School Holidays 2018

Our Australian School Holiday Calendar for 2018 is a great guide to help you make plans for the rest of the year. Conveniently divided into states, it makes it easy to find when your child will start and finish their holidays.

These dates are for public schools, and so there may be slight variations in start and finish times if your child is enrolled in private education. Also pupil free days for Teacher Development may delay the start of school in some cases. Dates are supplied by respective state Education Departments. Check with your school to confirm.

### NEW SOUTH WALES

|               |                      |
